Many of the most important functions, of the administration are in their hands, the military defence of the Yangtsze and Coast provinces, the management of Turkestan, with numerous high political offices; and there is no section of the whole Chinese people who carry so much weight in the counsels of the Empire as the Hunan section. There has been many times a discussion in divers works on French India .- either in the lucubrations of the Jacolliots and other fautastic writers or in the romances, more serious but not called water-pepper, but which might be more justly entitled fire-water, it being endowed with singularly exciting properties. The preparation has been named in the valgar language of Pondicherry mul'gutani, which is correctly milgutannir or rather milagunir, that is to say, "pep-per water." The English have corrupted this into muliig stawny. It gives its name to a soup which figures at all the great London banquets, especially those of the Lord Mayor and Oriental

The DIRECTORY covers the whole of the orts and cities of the Far East, from Penang to Vladivostock, in which are gathered sojourners from the West.

Not only is the Directory most full and complete in each case, but it is prefaced by DE. SCRIPTIONS of each Colony, Port, or Settlement, carefully revised each year, some of which such as those of Hongkong and Shanghai, will serve as perfect and accurate Guides for the Tourist, giving as they do every detail in connection with the places, their History and Topo-

The Information afforded in these Descriptions alone would suffice to fill an ordinary volume consisting of over Eighty highly interesting articles, packed with facts concisely set out, and containing statistics of the TRADE of each Coun- Thales, British str., 820, Sathurst, Dec. 9, try and Port.
